Abu Simbel and Head to Cairo

This awe-inspiring site is home to two colossal rock temples, namely the Great Temple of Ramses II and the smaller Temple of Hathor, located in Nubia.

The twin temples were originally chiseled out of the mountainside during the 13th century BC, in the reign of Pharaoh Ramesses II, as a lasting legacy to himself and his queen Nefertari, to celebrate his supposed triumph at the Battle of Kadesh and to intimidate his Nubian rivals. In a remarkable feat of engineering, the complex was relocated entirely in 1968, onto an artificial hill fashioned from a domed structure, towering above the Aswan High Dam reservoir. This monumental undertaking was necessary to preserve the temples from being submerged by the vast man-made Lake Nasser, created after the construction of the Aswan High Dam on the majestic Nile River.

Abu Simbel is undoubtedly one of Egypt's most captivating tourist attractions, and with the guidance of YET qualified Egyptologist, you will enjoy a personalized and exclusive visit to these magnificent temples. Marvel at the four rock-carved pharaohs and relish the rich history behind this grandiose site, including the fascinating tale of how the temples were discovered by chance in 1813.
